Ayer's Pills

Are particularly adapted to derangements of the digestive organs, and disorders arising from impure blood. A large part of all the complaints that afflict mankind originate in a foul stomach, and consequently these Pills are found to cure many other of these complaints than are the statements from persons who have used them.

"AS A FAMILY PHYSIC:

Dr. E. W. Cartwright, of New Orleans, says the Pills are the prince of purges. Their unrivalled purgative qualities are admitted in their action, and I find them invaluable to me in the daily treatment

NORTH AND ALL LIVER COMPLAINTS,

Dr. Theodore Bell, of New York, says: I have used your Pills admirably adapted to the purpose, but I find their 'sensible' qualities in every market. Indeed, they have in my hands proved more effectual for the cure of disease than any one remedy I can mention. I sincerely believe that as regards a purgative which is worthy of the confidence and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Kean, of St. Louis:

Your Pills were kind enough to relieve me from dyspepsia, and have satisfied me that they are a valuable medicine. So peculiarly are they efficacious in diseases of the liver, that they control them alone. I have cured some cases of dyspepsia with them, which had resisted the use of other remedies for years. Indeed I have ceased to prescribe in almost all cases, but them, which you recommend them."

DYSENTERY — DIARRHŒA — RELAX.

From Dr. J. G. Creveling, of Camden, N. J.:

I have had a long trial in my practice, and I esteem as one of the best agents I have ever found, either upon the liver, to make them remedy, when given in small doses, for bilious disorders. Their sugar-coating makes them easy to take, and convenient for the use of women and children.

CONSTIPATION — WORMS — SUPPRESSION.

Sherr, who practised in Payncum and Bishopville, S. C., says:

"I have used your Pills, taken at the proper time, in my practice, and also in my own family, and find them the most reliable and safe purgative we have had a long trial of. They are the best remedy we have for the cure of worms in children, and for a derangement of the stomach and liver in general. They are the best physic we have had, and I recommend no other in my practice."

CONSTIPATION — COSTIVENESS.

Dr. J. W. Temple, of Bristol, Canada, West, says:

"Your Pills are the best I have ever used in my practice, and I find for the cure of Costiveness, or Constipation of the bowels, and for all the derangements of the digestive organs that are removable by purgatives, they stand unrivalled. I believe cheerfully to recommend them to the public, as I have done to others of our fraternity here, and to my friends, although last enough in this part of the province that are worse

Adjutant General's Report.

Our acknowledgments are due to Adjutant General Webster for an early copy of his interesting Report—very handsomely printed by Messrs. Stevens & Sayward, printers to the State. It is evidently written with a zealous love of a system which in our country is the right arm of the people's defence,—and with a just pride for the uniformed corps which now comprise our active militia.

A large amount of statistical information is given, relative to the present condition of the military, and many suggestions as to its improvement, and the duties of the State in relation to it.

The law requiring returns from town assessors of the citizens liable to be enrolled for active duty has not been complied with by many towns; but there are returns of 63,694 persons as thus liable in the whole State. The returns of the present and absent members of active, disciplined companies at the May inspection, shows that 1070 appeared, and 594 members were absent from the inspection.—The total of those who do military duty, and preserve a drill is 1664.

At the close of 1855 there were 43 volunteer companies under organization. Within the year 1857, six new companies have been organized.

An appropriation of $3031 will be required for the expenses of the military for the past year. In addition $650 have been expended on the arsenal at Portland. The sum of $260 have been expended on the State Arsenal at Bangor, and $200 on the gun house at Brewer. It is recommended that the State make appropriations for gun houses for the Belfast Artillery Company and the Wiscasset Artillery Company.

The military property of the State consists of forty four pieces of ordnance, 9390 carbines, muskets, musketoons, and rifles, fourteen Colt's revolvers, 250 pistols, 442 sabres, 739 artillery swords.

The Adjutant General believes that the spirit as well as the form of the law of the U. S. requiring each State to keep up an organization of the militia, should be complied with, to a greater extent at least than it is now. Aside from the necessity of an armed force to insure the suppression of any internal feuds, he has in his mind "another potent reason for the exercise of arms." And that is its tendency to develope the physical capacities of our young men—to improve their vigor and manly bearing. Military drill, he thinks should constitute part of the education of every young man—"to develope his muscular system,—to teach him to *stand* and to *walk*, and to be what nature designed him to be, an erect, firm and energetic man."

The argument is certainly worth something.

The Report speaks in the highest terms of the three fall encampments at Waldoboro, Portland and Bangor.

From his description of the Bangor Encampment (at Camp Kent) we extract the following:

The troops came into line in handsome style, showing a good front, and declaring themselves, by word and action, ready for duty.

Colonel Nercross, (who, by the way, must be reckoned among the most energetic military commanders in the State,) assisted by Lieutenant Colonel Higgins, of Brewer, (a prompt and efficient officer,) perceiving at a glance that the troops were panting not so much from the effects of exercise, as for the want of it, immediately brought the battalion into active service by the performance of sundry evolutions and manœuvres well calculated to develope the skill and discipline of the officer, which are usually and uniformly discoverable in the movements of the private.

Although perfection may be considered in any and every department somewhat remote, yet on this occasion, it certainly was within speaking distance.

Throughout the encampment the utmost harmony prevailed, and a cheerful obedience to orders seemed evidently the desire and pride of the command.

The second day was marked with an increased zeal for duty, and at an early hour the several companies were in plume, ready for action. Among the many interesting incidents of this encampment, was that of a large volunteer company, composed of the citizens of Bangor, which came on the field under the command of that veteran in military service, Major General Isaac Hodsdon, of Dexter, assisted by H. E. Prentiss, Esq., of Bangor.—While that venerable General was marching at the head of his command, with the seeming buoyancy and spirit of youth, we were almost led to exclaim in the language of olden time, "His eye was not dimmed, neither was his natural force abated."

Another feature of no ordinary interest, was the appearance of a phalanx of mounted sturdy truckmen in uniform, some sixty in number, under the command of Captain Ezekiel Andrews, of Bangor.

The New York Assembly was at a dead lock up to last accounts in the attempt to organize. There are four or five members calling themselves "Americans" who hold the balance between the Republicans and Democrats, and voting constantly for a candidate of their own, for Speaker, prevent a choice. They insist upon having the Clerkship of the House for one of their "party," before they will yield.—They are quite likely not to get it.

ANOTHER SHOCKING PARRICIDE.—*Hamilton, C. W., Jan. 11.* A most atrocious murder was committed at Peelville, four miles from this place, last night. Jared Canstock and his wife, aged over 70 years, were the victims, and their own son was the murderer. He has for some time been insane.

The Union calls attention to the delays and foot resistances now attending a journey to or from Augusta, in consequence of the disconnection at Kendall's Mills. That connection ought certainly to be made. The people of Bangor and of this section of the country are generally united upon that point, however they may feel in regard to any railroad controversies which are going on. Railroad quarrels should not be carried to the extent of interfering with the facilities of travel—because in that case, not only does it inflict loss and vexation upon the public, but it re-acts against any company which produces the disarrangement and delay. That company cannot go before the Legislature with the same strength it would have if, even, with a rightful cause of complaint against another company, it should nevertheless do all in its power to accommodate the public in its connections with that road, rather than adopt a different policy. We say its own interests would, in our opinion, be better subserved thereby.

It is said that the lower Kennebec Company *can* make the connection at Kendall's Mills, in coming this way, by simply reducing the time of its stoppages between Portland and Kendall's Mills,—and that that company in reality *desires* the disconnection to continue, in order that the other company may appear in the position of discommoding the public in order to retaliate upon their opponents.

This may be so—but the A. & K. company, having changed its running time when the disconnection was made, so as to pass Kendall's Mills about twenty minutes earlier than the other train had been accustomed to do, it stands now in the position of the moving party, and the public does lay the blame upon it, rather than upon the S. & K. or the K. & Port. Co. We repeat our belief that it is for the interest of the A. & K. Company to do away with that impression, and to take such measures as will demonstrate that the disconnection is *not* of their seeking.

The northern democratic papers are making creditable progress in their education. They have mastered the ground work of the "national democratic faith of to-day, with surprising quickness. They already perceive with clearness that the system of human slavery would be a great deal better for poor white folks even than the system of freedom—especially for *paupers*. How much better (says the Boston Post) would it have been for poor old Mr. Sheldon of Gardiner, "had he *belonged* to somebody." And the Argus echoes—"True, but sad, is it not? It is a fact, that if "Mr. Sheldon had been the slave of a kind "master, the necessities of helpless old age "would have been humanely provided for."—Just so; but suppose he happened to belong to some master who was *not* kind—how would his necessities have been provided for?—any better than now? There are some people among us, strange to say, who still think even Northern pauperism preferable to Southern slavery. And then, so long as the poor man is able to support his wife and children at the north, he is apt to consider that he can have a home and a family while free; and that he can own *himself*, any how. We believe the laboring men of the North, (who are many of them poor, it is true, and some perhaps threatened with pauperism,) are rather inclined to live a while longer under our oppressive system of freedom—rather than try the blessings of slavery. We have not as yet noticed any petitions to our Legislature, from poor men, praying that the State will provide them with masters for life. Perhaps they may come to see how much more blessed is slavery than freedom, if they read the democratic papers attentively.—We are surprised that our Irish fellow citizens who to so large an extent have heretofore put faith in democratic newspapers, do not ask to be brought under the benign care of slavery.

Nathan Clifford has been confirmed as a Justice of the U. S. Supreme Court, by a vote of 26 to 23 in the Senate. The democratic majority is twelve or fifteen in that body.—It is evident, therefore, that he encountered considerable democratic opposition. Some of his political friends have been unkind enough to mention what John Holmes said about third rate county court lawyers, twenty-five years ago. We suspect, however, that it was not altogether on the score of ability that opposition came from the democratic side of the Chamber. It is more than whispered among democrats that he deserved to be rejected, for faithlessness to men who have been his political friends, and to whom he freely promised his paramount influence at Washington, in the matter of official appointments. We know there has been much bitterness against him of late, in certain democratic quarters; and we do not think his appointment will strengthen the party much in Maine.

TO PREVENT "CLICKING" AND INCREASE THE SPEED.—A blacksmith writing to the New England Farmer, about shoeing overreaching horses, talks thus:

My way is, to make the toe-cork very low and standing a little under, and the shoes set as far back as convenient on the forward feet, with high heel-corks, so as to let them roll over as soon as possible. On the hind feet I have the heel-corks low, and the toe-cork high, projecting forward, thus keeping back the hind foot, while coming up over a high toe-cork, giving time for the forward foot to get out of the way. If thus shod, the horse will travel clean, without a click, and his speed will be increased on a trot fifteen or twenty seconds on a mile.

A dentist recently wrote to Rev. J. H. Smith of Buffalo, as follows: "I am a Baptist dentist, and not finding such employment as I could wish in this village, I will ask what are the chances of my profession in your growing and beautiful city?" The clergyman acknowledging the receipt of the letter, replied—"Permit me to add that I have carefully looked over the outlines of the Baptist faith, and have been unable to discover *tooth-pulling* referred to therein."

THE ATLANTIC STEAMERS.—Disbursements of the Adriatic for each trip are estimated at about $60,000, and notwithstanding the receipt of $19,260 for the round trip, for carrying the mail, it is estimated she must have sunk $20,000 in her late trip to and from Liverpool.—The Persia, of the Cunard line, which left on Saturday, has probably made her last trip for the season.

LOCAL AND MAINE NEWS.

Penobscot County Conference.

Yesterday (Wednesday) forenoon was occupied after an hour of devotional exercises in hearing verbal reports from the several churches.

In the afternoon the Sabbath Schools gathered at 2 o'clock, filling up the house, and were addressed by Rev. Messrs. Treat and Grant, and by the venerable Father Sawyer, whose voice and language was perfectly clear and distinct. He closed with prayer. Several Hymns were sung appropriate to the occasion. The remainder of the afternoon was devoted to statements from Messrs. Treat and Grant, respecting the Armenian and African Missions.

In the evening, the subject of Missions was continued.

The meeting this (Thursday) forenoon will commence at 9 o'clock, at the Hammond St. Church.

In the afternoon, the Conference Sermon will be preached, and the Sacrament of the Lord's Supper administered.

AUGUSTA, Jan. 13.

The Temperance Convention met to-day, and was temporarily organized by the choice of N. G. Hichborn, Esq., of Stockton, chairman.

Quite a large number are in attendance.

Hon. Lot M. Morrill was chosen permanent Chairman, with one Vice President from each County, and the usual Secretaries.

The vacancy in the Piscataquis Senatorial District, was filled on Tuesday by the election of Mr. Andrew Wiggin. In the caucus he received the unanimous support of the Piscataquis delegation. Mr. Wiggin was the Straight Whig candidate at September election.

FATAL ACCIDENT. John H. White of Bloomfield, was killed yesterday, by being caught on the shaft of a planing mill where he was at work. He was about 66 years of age, and leaves a family to mourn his death.

The sleighing is good, as we understand, within a few miles of us west and north.—There was more snow on the ground than with us, and the rain of Monday did not carry it off.

Mrs. Vigue, wife of John Vigue, an old lady of 70, living near Skowhegan village, died very suddenly in her bed on Wednesday night week, supposed from the effect of an overdose of champhor.

BACKED DOWN.—As we predicted in a previous article, Mr. Chase, the New Register of Deeds for Oxford county, took charge of his office on Monday last, Jan. 4 h. The office was not yielded with a very good grace; but without a struggle. Mr. C. went into the office on that day, and addressing the old Register, said that he was qualified and ready to take charge of the office of Register of Deeds for Oxford County. The old Register answered that he didn't know about that. Mr. C. then asked H. for the office key, which the latter had secured in his pocket. Mr. H. said he should not give it up. Mr. C. then ordered on a new lock, and took the key. Here the resistance, about which so much has been said, ended.

The question is, why the old Register backed down from his position after having gone to so much expense, and after having procured an opinion in his favor from one whom all Democrats revere as *the* lawyer and Judge of Maine. If the opinion was *so* valuable, why did not the old Register put it to a test? Why retire from an unjust contest when self-interest and legal power were sure to win at the end of the race? Why, unless discretion was the better part of valor?—*Cor. Portland Adv.*

THOSE TURKEYS.—The great turkey spoken of yesterday (weighing 27 lbs) is one of three brought here by Shepard Cary of Aroostook, the three weighed 58 lbs. in the aggregate. The big fellow might have been made to weigh 35 lbs we think. His frame is immense.

The Portland Argus in reference to the case of Hon. Parker Sheldon of Gardiner, says: "The late Dr. Weed of this city, a valued and respected citizen, a few years ago, by an accidental fall became a helpless cripple. His friends promptly contributed from their abundance to furnish him a life annuity of six hundred dollars, which gave him a comfortable and independent support to the day of his decease, which occurred a short time since. We beg to suggest that the like may be done for Mr. Sheldon."

THE VOTE FROM MISSOURI AGAIN.—The whole vote on the Kansas Constitution on the 21st of December, so far as heard from, was 3647—of which 3616 were for the Constitution with Slavery. The Kansas Herald says:

Fully half the above vote came directly from Missouri. It is well known that there are not above 400 legal voters in Kickapoo, nor more than 150 at Shawnee Precinct, or 35 at Oxford. Gov. Walker visited Oxford in November last, and in his report to the President, he describes it as a village of *six houses*, without a tavern, and containing not more than 30 or 40 at the outside. This little townlet now returns 450 votes for the Slavery Constitution.

More than half the votes at Delaware were cast by Missourians.

Kickapoo, with its 400 legal voters, returned 1035 votes for slavery to 12 against it. Shawnee gives 404 for Slavery to 7 against.

WASHINGTON NEWS.—*Washington, Jan. 10.* (New York Times Correspondence.) A reliable despatch from Columbus, Ohio, announces that the Democratic caucus of the Legislature have unanimously agreed to instruct the Ohio Senators in Congress to vote against the administration.

New York Herald Correspondence.) Gen. Walker leaves for the South. He goes first to Mobile, and then to New Orleans. A large force was already concentrated at the above places, and will leave as early as possible to join Col. Anderson. Quite a number of filibusters discharged at Norfolk, have been here, received their dollars and gone South.

LEGISLATURE OF MAINE.

MONDAY, Jan. 11.

IN SENATE. On motion of Mr. Chapman, the bill for an Insolvent law, which was referred from the last Legislature to the present, was taken from the files and referred to a joint special committee, consisting of Messrs Chapman, McGilvery and Davis, on the part of the Senate. Order laid on the table in House.]

To-morrow (Tuesday) at 11 o'clock was fixed upon concurrently as the time for filling the vacancy from the Tenth District, occasioned by the death of Mr. Chandler. The committee reported the constitutional candidates, to be William Oakes and Andrew Wiggin.

HOUSE. The proposition to furnish all new members with a copy of the Revised Statutes, was amended, on motion of Mr. Rowell of Hallowell as follows: "*Provided* each member on receiving his copy shall pay $3 for the use of the State." The matter was thereupon indefinitely postponed.

The movement (says the correspondent of the Advertiser) originated with, and was sustained by the Democracy of the House, the Republicans who spoke, generally opposed it as an unwarrantable expenditure of the public money.

The Skowhegan Telegraph states that Dr. G. A. Wilbur, of that place, has invented and received a patent from the United States, for an apparatus by which treasures can be recovered from sunken vessels. It consists of a very ingeniously contrived grapple, or hook, which is so constructed that it will slide down a small chain and attach itself to the chest or safe containing the treasure. A triangle is attached to the safe by a strong cable, and placed outside the vessel, always free. Attached to this triangle by a small chain, which is reeled off as it rises, is a buoy. This buoy will of course float and discover the locality of the sunken vessel. When discovered the grapple may be allowed to slide down the buoy chain, and will attach itself, as before stated, and the safe can then be hauled up.

A RAILWAY TRAIN LADEN WITH SILVER.—The silver coin lent to the merchants of Hamburg by the Austrian National Bank, left Vienna by a special train on Sunday afternoon, and was delivered at Hamburg at noon of Tuesday. Fourteen large railroad wagons, with two engines provided, lest any accident might happen, brought the valuable treasure into the railway station, and sixteen double horse waggons were required to convey it from thence to the bank, to the no small astonishment of the wondering multitude. It cannot, therefore, be denied that silver is a very unwieldly commodity for a circulating medium; and wedded as many of the citizens of Hamburg are to their ancient monetary system, they might at least find one which would be much more convenient than that which, to meet a payment of about £700,000, requires the conveyance for so great a distance, and at such great speed, of 2825 tars, weighing more the 85 tons of standard silver. This arrival has been a great accession to the stock of silver in the vaults of the bank, and when to that is added the constant supplies which have been coming in from England and other quarters, the sum now deposited there has rarely ever been exceeded. It is now estimated to be of the value of five millions sterling.

THE EARTHQUAKE AT NAPLES.—The Journal of the two Sicilies (the official organ) gives the following account of an earthquake: "Two violent shocks took place at Naples during the night, from the 17th to the 18th. The first took place at ten minutes past one o'clock, A. M.; it lasted from four to five seconds. It was followed almost immediately after by a second shock, which lasted twenty-five seconds. It was so strong that both the clocks at the Royal Observatory were stopped. Two other shocks also took place between three and five in the morning, but they lasted only a few seconds, and were hardly perceptible.

At Atena half the houses crumbled to the ground. At Padula one hundred houses fell, number of killed not known; at Polla the disasters were immense, and the victims many, particularly among the gendarmerie. At Potenza, Auletta and Carreggiano, houses fell and crushed their inmates. At Salerno the public buildings were damaged. Two churches, the Governor's residence, and the gendarmerie barracks were greatly injured. A steeple fell in one of the suburbs—two women were crushed beneath the ruins.

"KEEP YOUR MOUTH SHUT." Never allow the action of respiration to be carried on thro' the mouth. The nasal passages are clearly the medium through which respiration was, by our Creator, designed to be carried on. "God breathed into man's nostrils the breath of life," previous to his becoming a living creature.—The difference in the exhaustion of strength by a long walk with the mouth firmly closed, and respiration carried on through the nostrils instead of through the mouth, is inconceivable to those who have never tried the experiment. It is said that the habit of carrying on the work of inspiration and expiration through the mouth is the origin of almost all diseases of the throat and lungs.

GRINDING FEED.—Experimental farmers have long urged the importance, and even necessity, of chopping or grinding hay, as well as other feed, for cattle and horses. The lazy drones have had a hearty laugh over the idea, and called it "Book Farming."

Now the theory of chopping, and grinding food, is based on a principle which lies at the foundation of animal physiology. Rest is essential to the accumulation of muscle as well as fat. If we wish to increase an animal in flesh, or fat, we do not work him.

Now a cow wants one thirtieth of her own weight in hay a day, to keep her in good order; and we may thus calculate the amount of labor required to masticate the food, and fit it for the stomach. The labor of chopping or grinding twenty-five pounds of dry hay a day, is no small item. This excessive labor is performed by one set of muscles—the jaws; but, by sympathy, affects all the other muscles; causes the blood to circulate quicker; the breath faster, the consumption of food greater; and still the growth of the animal is retarded.

If a machine was invented to grind hay, the ground article would approximate, in value, to unground oats, in producing fat and muscle. Chopping hay and stalks is valuable just in proportion as it approximates to grinding, and relieves the animal of the labor of grinding it. An animal fed on ground or minced food, may perform an amount of labor equal to grinding it fit for digestion, and fat as fast as another which does not labor, but grinds its own food.

Prematurely grey whiskers and beard, while the hair is still black, show the relative amount of labor performed by the jaws and the head.—*Ohio Farmer.*

THE REMOVAL OF MR. MCKEON. This removal is now fully consummated by the Senate's confirmation of Mr. Sedgwick, as successor. The pitiful majority of only two, in a body where the professed friends of the President outnumber his opponents by twelve or fifteen, involves anything but a compliment to Mr. Buchanan. But little as is the honor the President gets at Washington for this act of removing Mr. McKeon for opposing Fernando Wood, he gets infinitely less here on the spot where the deed takes effect. The Executive interference for the purpose of redressing the griefs of such a man, and punishing [illegible] in our Municipal affairs, has caused [illegible] mingled indignation and disgust [illegible] right-minded New-Yorker, and will ever remain as a foul blemish in the history of Mr. Buchanan's Administration.—*New York Courier and Enquirer.*

Hear the sledges with the bells—
Silver bells!
What a world of merriment their melody foretells!
How they tinkle, tinkle, tinkle,
In the icy air of night!
While the stars that oversprinkle
All the heavens seem to twinkle
With a crystalline delight;
Keeping time, time, time,
In a sort of Runic rhyme,
To the tintinabulation that so musically wells
From the bells, bells, bells,
Bells, bells, bells—
From the jingling and the tingling of the bells.

United States and Foreign

PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,

13 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent-granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 23, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the Office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with the office with whom I am acquainted.

CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a Principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments qualify him eminently for the business in which he is about to engage.

HENRY B. RENWICK, L. D. GALE, — Principal Examiners.
B. H. LANE, P. SOUTHCATE SMITH, T. R. PEALE, THOS. T. EVERETT, WM. C. LANGDON, — Assistant Examiners.

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD, *Late Principal Examiner of Patents.*

ARRIVAL OF THE

Star of the West.

AT NEW YORK.

NEW YORK, 15th.

The Star of the West from Aspinwall 4th, arrived here this evening with the California mails to the 31st of Dec., and $1,600,000 in specie. Connected with the Golden Gate, which brought from San Francisco two million of specie, about half a million of which was on English account.

The United States steamers Wabash and Fulton, were at Aspinwall. The former with a portion of the Filibusters, was to have sailed for Havana and Pensacola.

A passenger by the Star of the West states that Com Paulding sent several armed boats up the river to Fort Castillo, and commanded Col. Anderson to surrender. While negotiations were in progress, Anderson sunk one of the lake steamers in 35 fathoms of water, and before surrendering blew up the Fort, destroyed all of his ammunitions.

Col. Anderson and his men are understood to be now on the steamer Wabash.

The news from California contains no feature of striking interest.

Copious rains had fallen all over the State. The journals give glowing accounts of the success of the miners and speak hopefully of the future.

Lieut. Ives had commenced the survey of the Colorado river with a stern-wheel steamboat.

The Sonora surveying party, under Colonel Stone, had left Los Angeles.

The Mormons have all left San Bernardino for Salt Lake. Their farms we're being sold at a ruinous sacrifice.

A bill containing deposits resembling gold had been discovered in Napa Co.

The Mariposa, Fremont's rancho is to be sold for taxes. It was assessed at about $700,000, and the taxes amount to $70,000.

A street affray occurred in Sacramento on the 17th ult, between Chas. A. Sumner, a relative of Hon. Chas. Sumner of Boston, and Henry Shipley, editor of the Republican and State Journal. Mr. Sumner was badly beaten.

Good health prevailed throughout the State.

Sandwich Is and dates are to the 10th of Nov. Chinese sugar cane had been raised 10 feet high in the Island.

There were 80 vessels at Honolulu.

A mutiny had occurred on board the whale ship Alice Frazier, which resulted in the death of one man.

A young man named Jos. H. Taylor of New Bedford, Mass., was found dead in a stable in San Francisco, on the 4th ult.

The Benita Diaz claim was rejected at San Francisco, on the 4th ult., by the U. S. Dist. Court.

E. M. Negley, Receiver of Adams & Co., had been ordered by Judge Hager to pay into Court the sum of $60,000, remaining in his hands on the 5th ult.

Six hundred Chinese sailed from San Francisco in the 1st week of Dec.

The Honolulu papers state that the arrival of whalers at that port has been larger, the past year than in 1856. There were 50 whalers in that port, and as many more at other ports on the Islands. It is estimated that the average catch is about 850 barrels for each vessel.

The American ship John Land sailed for New Bedford on Nov. 7th with the most valuable cargo ever despatched from Honolulu, being valued at $600,000.

The whale ship Indian Chief was wrecked in the Arctic Ocean on the 26th of Aug. The captain and crew reached Plover Bay in safety.

Dates from Valparaiso are to the 12th of Dec.

The Government of Chili had made such concessions as were demanded by the public, and all fears of a revolution had ceased.

There was considerable pressure for money at Valparaiso, but few failures had taken place.

The Peruvian authorities have committed another outrage against the U. S.; having taken a sailor from the American ship The Wales, and lashed him on the buoy for four hours, as a punishment for having struck a Chilian on board the T. Ba Wales. Capt. Burr protested against the outrage to the Peruvian commander, who, in a very insolent manner told Capt. Burr that if he did not mind his own business he would be put in the sailor's place.

The American Minister at Lima is investigating the matter.

SECOND DESPATCH.

CONGRESSIONAL.

WASHINGTON, 13th.

SENATE.—Mr. Doolittle introduced a joint resolution directing the presentation of a medal to Com. Paulding.

The Senate debated the motion to reconsider the vote adopting the amendment to joint resolution extending and defining the power of the President in nomination of officers affected by the action of the Naval Retiring Board, which amendment prescribed that there shall be no such construction as to allow increase of the number of officers in the act vo service list as now authorized by law.

Mr Toombs and others contended that the effect was to prevent justice being done to the officers injuriously affected by the action of the Naval Retiring Board. Mr T. said they were victims of the most perfidious treachery.

Mr. Stuart argued that no necessity had been shown for increasing the active list. Although a great deal had been said about injustice, the specifications had not been mentioned.

Mr. Davis mentioned two cases of gallant officers who were struck down while in honorable service, one in Puget's Sound, and the other on the coast of Africa.

Mr. Hale eulogized Com. Stewart, and denounced the Retiring Board generally. (When he closed his remarks there was a slight demonstration of applause in the galleries, which were densely crowded by officers of the Navy and others.)

After a long debate the amendments were rejected, and a joint resolution passed with another amendment limiting the power of President to nominate, to six months after passage of the act.

Mr Brown gave notice of an amendment to Mr Doolittle's resolution for a medal to Com. Paulding—to the effect that Congress has heard with surprise of Walker's arrest at Punta Arenas, that the act was a violation of the sovereignty of Nicaragua, and Congress disavows it, being officially satisfied that Paulding acted without instructions, and hereby expresses its condemnation of his conduct.

HOUSE.—The House went into Committee of the Whole on the Presidents message.

Mr. Curtis made a speech against filibustering. He said Com. Paulding, like a true and honest sailor carried out his instructions. It was not his duty to expound law. Walker was brought home to save his neck, and for that he should be grateful.

Mr. Clay maintained that it was not only in the power, but it was the duty of the President to send for Walker over the high seas and bring him back. He thought Com. Paulding committed a grave error, but that the remark of the President was sufficient censure of the conduct of that officer. He expressed his acquiescence in every word the President had written on Central American affairs.

Mr. Pottle of N. Y., said that there was but one feeling among all right minded men, and that was satisfaction that Walker had been arrested in his career of crime, and to that extent Paulding had vindicated the honor and integrity of his country. He heartily concurred with the President in his views on this question, altho in the opposition he would endeavor to sustain him as far as he could, even against the President's political friends.

He entered his protest against the system of An ericanization which was so earnestly advocated on all sides of the Hall. Before he could unite in it he must first understand by what authority or right it was to be undertaken, and what are the precise objects and purposes. He denied that we have the right to Americanize Central America without an invitation, and that because that country would be advantageous to us we have the right to lay violent hands upon it. Before undertaking to Americanize our neighbors they should be informed of our theory of government, as set forth in the Declaration of Independence and its practical working under the Constitution in regard to human bondage. He earnestly deprecated territorial aggrandizement. The acquisition of every foot of land, as experience had proved, has only weakened the country and engendered animosities before unknown.

Mr Lamar of Miss. frankly acknowledged that the promotion of Southern interests was accordant only to the preservation of Southern honor. Though the South be in a minority, she, relying on the invincibility of truth and right, has been enabled to command the respect of her friends, and to defy the malice of enemies.

While justifying the Lecompton Convention, he said Gov. Walker had violated his pledges, disgraced his trust, and in fleeing from Kansas had scattered firebrands of discord—and Stephen A. Douglas, who was for hanging in California over all law, was now endeavoring to outrage the rights of the Southern States, and subjecting Kansas to the rigors of the Inquisition because there was but slight prospect of its becoming a slave State.

The Chairman reminded the gentleman that he was not in order, in alluding to Senators by name.

Mr Lamar said he did not allude to any Senator, but to a distinguished aspirant for the Presidency. (Laughter.)

Mr Montgomery contended that the true doctrine is that when the government is at peace with any nation every citizen is at peace with it; if gov't cannot invade a territory, citizens cannot. A treaty of peace is as broad as the country, and embraces every individual in it. It would be a monstrous doctrine if a hundred or a thousand men could invade or attack a neighboring nation at peace with us. Com Paulding did no less than his duty, and it is our duty to send Walker back for punishment by the offended State.

The President had committed a mistake in being too mild towards Walker.

Mr Dolliefer thought it our best policy to let the neutrality laws stand. He did not believe Walker had violated them. He knew Walker was not a pirate. He was a quiet, modest, self-poised man, of fine education, and understood the laws better than many who so grossly denounced him. Paulding's act was a usurpation of power not warranted by the constitution, but he believed it was in the spirit of our instructions.

The committee rose, and the House adjourned.

Gov. Denver's Message.

ST. LOUIS, 13.

Gov Denver's message to the Kansas legislature ascribes the bitter feeling and animosity existing in the territory more to personal hostility than political considerations—refers to the unanimous action of the citizens of Nebraska as worthy of imitation by the people of Kansas—draws attention to the 2nd section of the schedule of the Lecompton Constitution, advising the avoidance of legislation 'till the action of Congress is ascertained, for should Kansas be admitted under that Constitution all the acts will be nullified—recommends early attention to the collection of revenue and the building of a prison—alludes to the rumor of the existence of an organization similar to the Danites of Utah, and advises action in reference thereto. Other suggestions are made relative to amending the election laws and protecting the school lands.

The Democrat has just received advices from Kansas, stating that the State legislature met at Topeka on the 4th inst., and after receiving Gov. Robinson's message adjourned to Lawrence.

General Calhoun was at Westport Missouri, where he had made a speech discouraging the entrance into the territory of large bodies of men, but countenanced the propriety of single individuals, rendering assistance to their friends.

Message of the Governor of Maryland.

ANNAPOLIS, Jan. 13.

Gov. Hicks was inaugurated to-day soon. His address opens with a reference to the evils of a foreign immigration and the naturalization law question, and quotes the farewell address of General Washington against foreign influence. He says the people of Maryland have declared, in a way not to be misunderstood, their appreciation of these evils, and their determination to remedy them. The right to vote is conferred by the Constitution alone. Its limitations are prescribed in that organic law, and fills no dent from the result of the late elections that the people of the State think it requires further guard.

He touches upon religious interference, and alludes to the attempt to divide the school fund among sectarian schools. Condemns the slavery agitation, and says Maryland, while she will hearken to no suggestion inimical to the slaveholding States, will set up against all disunion propositions. He alludes to the recent election troubles, and final proves of military interference at the polls. He alludes to the evils of carrying concealed weapons, and to the law's delay in the prosecution of criminals.

From Kansas.

ST. LOUIS, Jan. 13.

The Westport correspondent of the Republican gives the official vote of the Shawnee and Oxford precincts. The former 831, and the latter 738 democratic majority.

A letter from Fort Scott to the same paper reports a liquor there.

Bourbon County gives 800 democratic majority.

FROM KANSAS. THE LECOMPTON CONSTITUTION VOTED DOWN.—Accounts from St. Louis of the 12th, state that at the election of the 10th inst, nearly 10,000 majority was given against the Lecompton Constitution. The Free State men not all of them voting for State officers the democratic State ticket was probably elected—but a majority of the Legislature is Free State.

Johnson county is reported 1900 pro-slavery majority.

The Free State men were making arrests of fraudulent voters, under the recent act of the Legislature.

At Calhoun, a Judge named Calvert was arrested for stuffing the ballot boxes, and another named Redman, for receiving fraudulent votes.

There was much excitement, and fears of serious trouble.

Calhoun was supposed to be in Missouri and was advised not to return.

SUICIDE. *New Orleans*, Jan 11. Dr. Austin Jones, ex-President of Texas, committed suicide at Houston on the 6th by blowing out his brains.

The store of Stephen Munson, at Eastport, was burned on Sunday last. Loss $5000—no insurance.—*Machias Rep.*

LATER FROM THE UTAH EXPEDITION. *St. Louis*, Jan. 12. The Republican has advices from the Utah expedition to Dec. 1.

The troops were all in winter quarters at Fort Bridger, with the exception of Col. Cook's command, which was posted forty miles distant.

Fort Bridger was being rebuilt, for the purpose of protecting the provisions.

The provisions on hand were sufficient to last until next June, by close allowance.

Capt. Marcy had been sent to Taos and Santa Fe to obtain supplies.

Nearly two-thirds of all the animals of the expedition had died.

The Mormons were preparing to leave for the British possessions, and pioneer parties had already left.

Brigham Young has sent a quantity of salt to Col. Johnston, which that officer sent back, stating that he would bring any messenger from the same quarter, on a similar errand.

WORCESTERSHIRE SAUCE

PRONOUNCED BY CONNOISSEURS TO BE THE *Only Good Sauce* AND APPLICABLE TO EVERY VARIETY OF DISH.

EXTRACT of a Letter from a Medical Gentleman AT MADRAS TO HIS BROTHER at Worcester, May, 1851.

"Tell LEA & PERRINS that their Sauce is highly esteemed in India, and in my opinion, the most palatable, as well as the most wholesome Sauce that is made."

The only Medal awarded by the Jury of the New York Exhibition, for Sauces, was obtained by LEA & PERRINS for their WORCESTERSHIRE SAUCE, the world-wide fame of which having led to numerous imitations, purchasers are earnestly requested to see that the names of "LEA & PERRINS" are impressed upon the Bottle and Stopper, and printed upon the Labels.

FLOUR,

Wheat Meal & Shorts,

The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Wester Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities, in unbolted wheatmeal, and in shorts. A car load, 100 bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently not injured by packing 105 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in vessels; as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms. Upon application to the subscriber, Office No. 27 West Market Place.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via. Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama; and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. Portland to Boston.

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the FOREST CITY, Capt. F. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.

Fare in Cabin, $1,25
Fare on Deck, 1,00
Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and food of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.

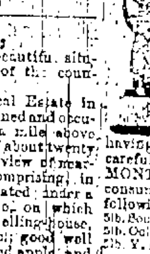
TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,

(Sign of the Chinaman grinding Coffee,)
No. 8 Broad, near State Street,........ Boston.



Supply the best, finest and purest articles, at the *lowest Cash prices*. Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum or Prepared Dandelion, Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure* and *genuine*, as they are put up carefully, and bear our name and label. "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our sales, we annex the following scale of prices, viz:

5lb. Bouchong Tea,	1,75	5lb. Mocha Coffee,	1,10
5lb. Oolong Tea,	2,00	5lb. Java Coffee,	1,00
5lb. Y. Hyson Tea,	2,50	8lb. good Coffee,	1,00

The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the *genuine article.* The proportion used is about one half the quantity of coffee. The price is 20 cts per pound; and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Billious affections, &c.

Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our article called Taraxacum in the market.

To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the quality of our stock, and our prices, as compared with those of any other house.

Premium awarded to T. C. BUTLER, Derby Line, Vt., on MILLER'S CONDITION POWDERS, for Horses & Colts, at the Vermont State Fair, held at Burlington, Vt., Sept. 9, 10, 11 and 12, 1856.

MILLER'S CONDITION POWDERS For Horses & Colts.

PRICE—Twenty-five Cents.

THE changes of weather and season, with the changes of use and feed, have a very great effect upon the blood and sinuous fluids of Horses. At these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Bots, &c., all of which will be prevented by giving one or two of these Powders, Spring or Fall, and will at any time cure where any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, clean the water, and invigorate the whole body, enabling the animal to do more work with the same feed.

The action of these powders is directly upon the secretive glands, and therefore all diseases arising from or producing a bad state of the blood are speedily cured by them. Also, colds and surfeit of any kind are cured by one or two of these powders, if given according to directions.

In all cases of Horse Distemper they should be given at the first symptom to prevent fevers, and in the last stage, to carry off all humors of the blood, and to restore a healthy action to the glands of the throat.

We, the subscribers, hereby certify that we have used *Miller's Condition Powders*, for Horses and Colts, prepared by *T. C. Butler*, Druggist, Derby Line, Vt., and think them the best Powders for Horses and Colts that are out of condition, that we have ever used. We would recommend them to Farmers, Stage Companies, Stablemen, and others, dealing in or keeping Horses and Colts.

They will clean the Worms and Botts out of a Horse's stomach, and give him a good appetite for his food, and a good coat.

They are also good for the Heaves, and for a Cough and they have been highly recommended for the cure of Worms and Bots in Colts.

They clean the water, loosen the skin, and invigorate the whole body, enabling the horse to do more work with the same feed. (Signed by)

Timothy Winn—Mr. Butler would say that Mr. Winn is the proprietor of the Canada House and Stage office on Stanstead Plain, and was for many years proprietor of the Derby Line House, Derby Line, Vt., where he raised the black colt called the Know Nothing, which was sold at $1800 at four years old.

Erastus Lee—Mr. Lee is one of the most extensive farmers in Eastern Canada, and has raised some very valuable horses, which he has sold at high rates. This gentleman raised and sold the bay horse called Charley, which was afterwards sold for $1000 and taken to France. He also raised and sold the horse called Bony, which has been taken to California, and is held at $15,000. Mr. Lee keeps from 40 to 60 horses and colts, and makes great use of Miller's Condition Powders.

Wm. B. Hoyt—keeps the Lyndon House and Livery Stable at Lyndon, Vt.

H. Heath—drives from Lyndon to St. Johnsbury.

A. B. Fant—St. Johnsbury, Vt., dealer in horses.

Geo. A. Merrill, St. Johnsbury, Vt., Master of Transportation on Railroad.

H. A. Quimby—Merchant, Lyndon Centre, Vt., and keeps the Powders for sale.

American & Foreign Patents,

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington under Act of 1837,)

76 State Street, opposite Kilby-st., BOSTON,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor for procuring patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

[From the present Commissioner.]

"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners, with whom I have had official intercourse. CHARLES MASON, Com'r of Patents.

DR. SANFORD'S INVIGORATOR, or Liver Remedy.

THIS IS ONE OF THE GREATEST SCIENTIFIC Medical discoveries ever made, and is daily working cures almost too great to believe. It cures as if by magic, even the *first dose* giving benefit, and seldom more than one bottle is required to cure any kind of *Liver* Complaint, from the worst Jaundice or Dyspepsia to a common headache all of which are the result of a *Diseased Liver.*

The Liver is one of the principal regulators of the human body, and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions. When the stomach is at fault the bowels are at fault, and the whole system suffers in consequence of one organ—the Liver—having ceased to do its duty. For the diseases of that organ one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with Liver Complaint in any of its forms, has but to try a bottle, and conviction is certain.

A compound has been formed by dissolving gums and extracting that part which is soluble for the active virtues of the medicine. These gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease, and effecting a radical cure without any of the disagreeable effects felt by using Calomel or Mineral Poison, that are usually resorted to.

To all who will follow these directions a cure is positively guaranteed. Sick Headache can be cured by the use of two tea-spoonfuls, taken as soon as the attack is felt.

The Invigorator never fails to cure sour stomach or bad effects experienced after eating. Only one bottle, and Chronic Diarrhea, difficult, it is said, is to cure, a never troublesome to those who take the Invigorator.

For Dyspepsia or Jaundice, nothing in the known world acts so fully or cures so quickly as the Invigorator. It removes all yellowness and unnatural color from the skin.

For Night Mare, take a dose before retiring, and it is warranted a sure preventative.

For Female Obstructions, as it removes the cause of the disease.

Costiveness cannot exist where the Invigorator is freely taken, while it yields readily to a few doses.

It must be known that all these are Liver diseases, caused by a deranged Liver, and to cure them needs a Liver medicine, and one of great power.—The Invigorator is such a medicine; it has medicinal powers, never before discovered, that will cure all diseases of the Liver, no matter of how long standing, or what may be their form. The active medicinal virtues extracted from the gums used is such as to be astonishing to all who see their effects, for none can use it and not find without receiving benefit. It acts as a gentle cathartic, and should always be taken in sufficient quantities to operate on the bowels gently. The best way to take it is to take the medicine in the mouth, then take some water and swallow both together. In this way the medicine will scarcely be tasted.

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these Pills are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Cartwright, of New Orleans.

"Your PILLS are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The PILLS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of *dyspepsia* and *indigestion* with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHOEA — RELAX.

From Dr. J. G. Green, of Chicago.

"Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for *bilious dysentery* and *diarrhoea*. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, who practices as a Physician and Midwife in Boston.

"I find one or two large doses of your PILLS, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada.

"Too much cannot be said of your PILLS for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your PILLS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia.

"You were right, Doctor, in saying that your PILLS *purify the blood*. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE—SICK HEADACHE—FOUL STOMACH—PILES—DROPSY—PLETHORA—PARALYSIS—FITS—&c.

From Dr. Edward Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer you *what complaints* I have cured with your PILLS better than to say *all that we ever treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly."

Most of the Pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.
